

City of Turner Transportation System Plan

What is a Transportation System Plan (TSP) ?

A TSP is a Document that...

- . Guides long-term policy and planning for transportation improvements
- . Is essential for the City to compete for federal, state and regional funding for transportation projects
- . Outlines Projects, Programs, and Policies
- . Is required by the Transportation Planning Rule documented in the Oregon Administrative Rule 660-012-0015

Questions the TSP Process Answers

What do we want?

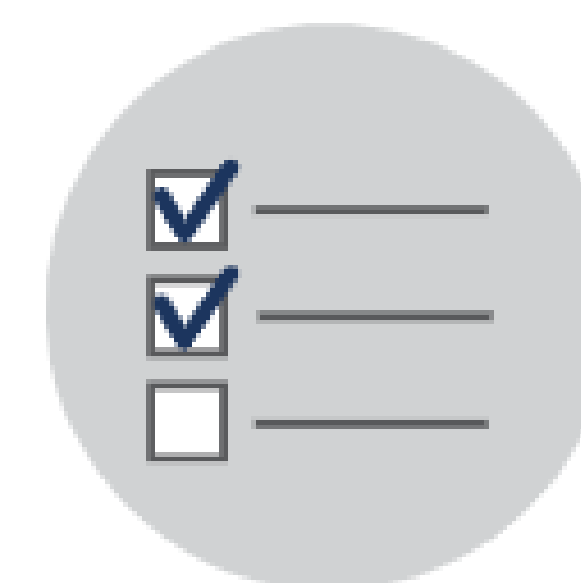

What do we have now?

What will we need in the future?

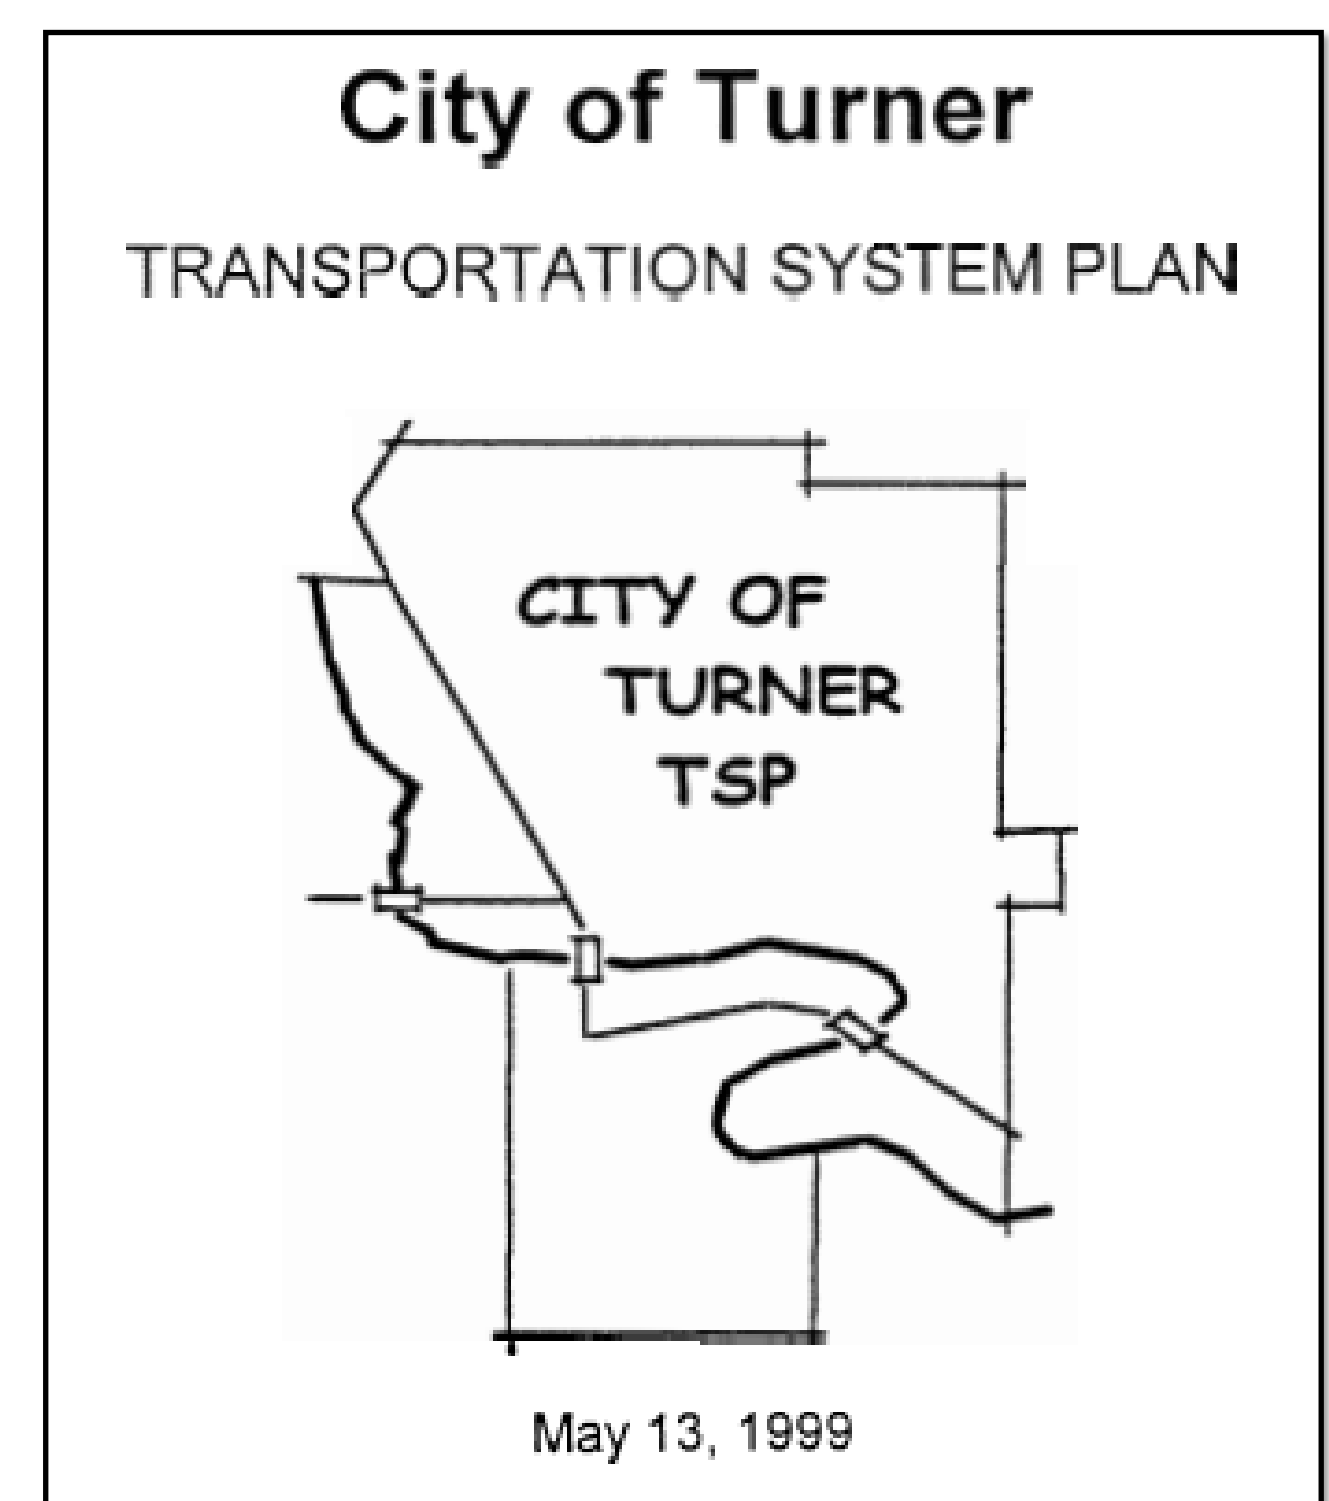

How will we fund our projects?

What should we do first?

Why Update the Current TSP?

- . The current TSP was created 24 years ago in 1999
- . The City of Turner population grew 80% between 2000 and 2020.
- . Majority of the recommended transportation projects have been completed; the City needs direction on what to improve next
- . Need to keep current with changes in state and regional transportation policy as well as to address changes in local and inter-agency priorities

TSP Project Schedule

2023			2024			
SPRING	SUMMER	FALL	WINTER	SPRING	SUMMER	FALL
BACKGROUND, GOALS, & OBJECTIVES	EXISTING TRANSPORTATION CONDITIONS	FUTURE TRAFFIC CONDITIONS	PROPOSED SOLUTIONS	TURNER ROAD CONCEPTS	PREFERRED SOLUTIONS & IMPLEMENTATION MEASURES	FINAL TSP ADOPTION
